What are you investing in?

1.1 Investment Policy

1.1.1 Underlying asset

TMB EASTSPRING Global Smart Bond Fund (The fund) mainly invests in JPMorgan Funds - Income Fund (Master Fund), Class C not less than 80% on accounting-year average of its net asset value. This class is offered to institutional investors no dividend policy. Master funds have a policy to invest in various types of debt securities issued by governments and corporate debt

Securities Issuers may be located anywhere in the world which is listed on the Luxembourg Stock Exchange and operating under the regulations of UCITS. The Master Fund has been managed by JPMorgan Asset Management (Europe) S.à r.l. and invested in USD currency.

The Management Company reserves the right to change the type and characteristics of the Fund in the future as a Fund of Funds or invest directly in the instrument. And / or foreign securities without increasing the risk spectrum of investment risk. This shall be at the discretion of the fund manager depending on the market situation and must be for the best interest of the unit holders. In addition, the Management Company will notify the unitholders at least 30 days in advance via www.tmbameastspring.com or any other way that the management company determines before making changes to such investments.

The fund's investment in Master fund will be in the form of USD currency. The fund may enter into FX swap transaction to hedge FX exposure pursuant to the Fund Manager's discretion.

The fund may invest in derivatives to efficiently manage its portfolio (EPM) or may invest in the structure note. In addition, both domestic and foreign investment may invest in non-investment grade or unrated debt securities or unlisted equity securities.

1.1.2 Master fund's investment policy

Main investment exposure at least 67% of assets invested in debt securities issued by governments and corporate debt securities. Issuers may be located anywhere in the world.

In addition, Master fund may invest in derivatives for hedging purposes and for efficient portfolio management and to generate additional returns to the fund

Investors can view more Master Fund Information at www.jpmorganassetmanagement.lu

1.2 Management Style

1.2.1 TMB EASTSPRING Global Smart Bond Fund aims to achieve return reflecting the performance of the Master Fund (passive management)

1.2.2 JPMorgan Funds - Income Fund (Master Fund) applies an active management strategy

Who is the Fund suitable for?

Investor who would like to diversify their investment in offshore market for long-term investment and can accept risk of investing in securities or assets that are equity

securities in foreign countries, Foreign exchange risk and price volatility of the Master Fund

This fund is not suitable for:

1. Investors who need to use money in the near future.
2. Investors who are unable to accept the volatility of investment and returns, both short term and long term.

For further clarification on this investment policy and potential risks, what should you do?

- Read the full prospectus or seek advice from the management company or its appointed selling agents.
- Do not invest without sufficient understanding on the characteristics and risks of this Fund.

What are the key risks of the Fund?

Warnings & Recommendation

1. TMB EASTSPRING Global Smart Bond Fund is not capital protection fund. Investors may have risk of losing initial investment.

2. JPMorgan Funds - Income Fund Fund (Master fund) funding from investors in USD and bring that money invest in various currencies according to the invested countries, and may enter into FX swap transaction to hedge FX exposure pursuant to the Fund Manager's discretion. TMB EASTSPRING Global Smart Bond Fund may

enter into FX swap transaction to hedge FX exposure pursuant to the Fund Manager's discretion. Therefore, Master fund may get both positive and negative effects due to the fluctuation of any other foreign currencies except USD currency. This is because The Master fund had invested in various of foreign currency assets and the investors may lose or gain value from foreign exchange or may receive return less than their initial investments.

3. TMB EASTSPRING Global Smart Bond Fund and Master fund may invest in derivatives to efficiently manage its portfolio (EPM). Therefore, this fund has higher risk than other funds, it thus suits the type of investor who can accept higher risk for higher returns. Investors should invest in this Fund only when fully understand about derivatives and should consider the investing experience, investment objective and financial position before investing in this Fund.

4. TMB EASTSPRING Global Smart Bond Fund's investment is highly concentrated in USA and therefore investors should consider diversify the risks in their portfolio.

5. TMB EASTSPRING Global Smart Bond Fund may invest in the structure note with higher risk than other funds, it thus suits the type of investor who prefer high returns and can accept higher risks than other general invertors.

6. TMB EASTSPRING Global Smart Bond Fund may invest in non-investment grade or unrated debt securities or unlisted equity securities at the higher ratio than those of other mutual funds, in which case, the investors may be exposed to higher risks, e.g the issuer's default risk or liquidity risk.

7. The master fund has a limited redemption of investment units of the master fund in the event that the unitholders of the master fund redeem the investment units

more than 10% of the net asset value of the master fund. The master fund will gradually receive a redemption order and allocate the redemption proportionately to the unitholder who has issued the order to not redeem more than 10% of the net asset value of the master fund

By redemption order that exceeds 10% of the net asset value of the master fund The master fund will perform the transaction on the next business day. Which the said order will receive the right to allocate first. However, the management company does not restrict the redemption of investment units of the TMB East Spring Income Allocation Fund in any way, but only discloses the limitations of the master fund in the project details.

8.To comply with the terms and conditions of the Master Fund, the Management company reserves the right to submit unitholder information (including information of previous unitholders of this fund) to the Master fund (which shall include relevant parties) and relevant government authorities, both local and foreign, when there is a case where such unitholder possesses (either directly or indirectly) more than 10 % of the fund, or when information is requested or required by the Master Fund. This includes the request for additional information from the unitholder and/or from selling agent (including LBDU) that the unitholder transacts through. In addition, the Management Company reserves the right to suspend or terminate services and to proceed with the redemptions for unitholders who are un-cooperative or unitholders with qualifications prohibited by the Master Fund, which is subject to change from time to time.

It shall be deemed that TMBAM has already been received consents for TMBAM's actions that stated above from the unitholders. It shall also be deemed that TMBAM's selling agents(including LBDU) has already received consents to provide unitholders' information to TMBAM, the Master Fund, and the relevant government authorities, both local and foreign.

9.TMBAM has an objective not to offer its fund units to or for the benefit of

1) Citizens of the USA or residents of the USA [including the territories of or occupied /controlled by the USA] including those who hold US passports or green cards.

2) Legal entities organized under the US law including company Limited Partnership, etc., as well as the branch of such entities.

3) Organizations belonging to the US Government in the USA and outside the USA.

4) Investors who contact or receive information or place order related to TMBAM's fund or pay/receive payment with respect to TMBAM's fund in the USA. This also includes investors who use the agent/ manager in the USA to perform such functions.

5) The assets (such as private fund/trust) of the aforesaid persons or legal entities in 1-4. As such,

TMBAM reserve its right to deny or restrain subscription, allocation and/or transfer its fund unit for the above -mentioned investors, whether directly or indirectly.

10.In the event that the Management Company has entered into an obligation or agreement with a foreign state and/or the government of a foreign state or if it is

required to comply with a law or a regulation of a foreign state regard less of the effective date of such obligation (e.g. the United States Foreign Account Tax Compliance Act (FATCA)),the Unitholder(s) acknowledge and agree that the Management Company may act or perform its obligation according to the relevant law and/ or regulation to which Management Company is subject, including but not limited to disclosing information of the Unitholder(s) or withholding and withhold able payment payable to the Unitholder(s),and may act or perform any other action necessary for complying such relevant Thai and foreign law and/or regulation to which the Management Company is subject, and shall provide any information ,document, and consent to Management Company upon request in performing such duty.

Risk Speotrum of the Fund

Explanation of Risk

- market risk

portfolio duration : *This fund has a portfolio duration of 2.30 Years*

(Information as of 31 July 2020)

standard deviation : SD

Market Risk means the risk that the values of securities which the Fund has invested may increase or decrease due to outside factors such as economic/ investment situations, political factors both internally and internationally which could be considered from the Standard Deviation (SD) of the Fund. If the Fund has a high SD, it is an indicator that the Fund has high a fluctuation from the changes in the prices of securities.

High sector concentration risk

Remark : The concentration occurs among Agency MBS and HY Corporate

High country concentration risk

Remark : Remark : The concentration occurs among UNITED STATES

- exchange rate risk

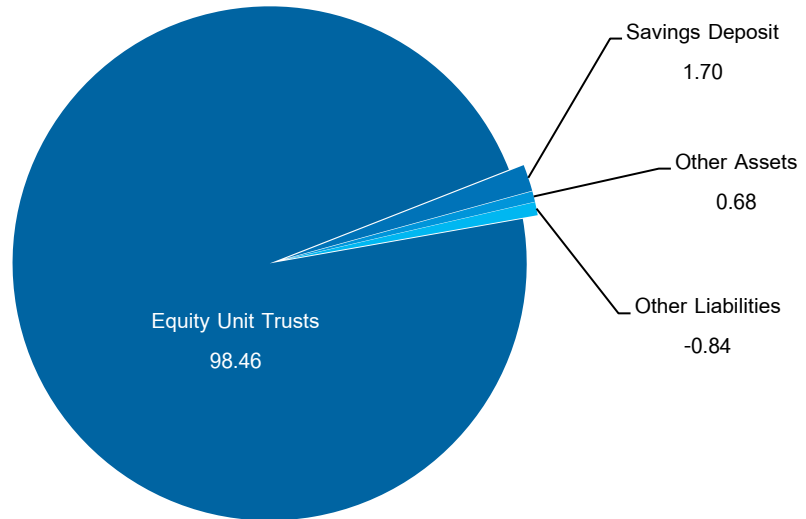

Currency Risk is the possibility that changes in exchange rate will affect the value of investment units. For example, if a mutual fund invests in securities denominated in US Dollar during Thai Baht depreciation and the units are subsequently sold when Thai Baht appreciates, the mutual fund will receive lower return in Thai Baht. On the other hand, if the same fund invests in securities denominated in US Dollar during Thai Baht appreciation and the units are subsequently sold when Thai Baht depreciates, the mutual fund will receive higher return in Thai Baht. Therefore, currency hedging techniques as follows are key tools to manage such risk.

- Hedging at discretion of the fund manager: Investors may be exposed to currency risk because it is the discretion of the fund manager whether to use a currency hedging technique.
